Take Control of Your Cutlery

SmartStock® Tri-Tower Dispenser

Seldom can a new product help operators meet their most pressing challenges: reducing cutlery waste, improving hygiene, streamlining employee tasks, and maximizing counter space. The SmartStock® Tri-Tower dispenser was designed with operational efficiency in mind. That's exactly what you get from the industry leader in cutlery dispensing technology: game-changing performance that your patrons will appreciate.

Universal chambers let operators configure the dispenser with any combination of Series-T utensils.

Why SmartStock® Tri-Tower is Good for Business

HYGIENIC DISPENSING

Touchless, automatic dispensing means no buttons or levers to push, helping to improve hygiene and prevent contamination. Patrons touch only the utensils they need.

HIGH-CAPACITY ADVANTAGE

Holds up to 390 utensils, the most of any SmartStock® dispenser—so restocking is less frequent. Pre-counted cutlery refills can help cut reloading time.

FULLY ENCLOSED 3-IN-1 STATION

Patrons get all their cutlery at one station. And employee restocking is hygienic and easy within the fully enclosed dispenser.

WASTE SAVING & SUSTAINABLE

Tri-Tower and its one-at-a-time dispensing can reduce cutlery waste—so less cutlery to replenish and less landfill trash.

RELIABLE TECHNOLOGY, SMALL FOOTPRINT

Operators trust Dixie Ultra® dispensers to perform consistently and impress patrons. Efficient design requires very little counter space, and dispenser also mounts conveniently on the wall.

CUSTOMIZABLE INSERTS

A full selection of dispenser inserts is available to add colorful design and messaging to dispensers. You can also order customized inserts with your own brand-specific messaging and logos.

Tri-Tower Dispenser + Series-T Cutlery Refill Selections

MFR #	Dixie Ultra® SmartStock® Product	Substrate	Series	Color	Quantity
