

1 Lid fits 3 Containers

Flexstyle® DSP Paper Food Containers and Lids

- Recyclable - May be recycled if you have access to a recycler that accepts paper foodservice containers. Such facilities may not exist in your area.
- Renewable - Made from 91% plant-based renewable resources that can replenish themselves and meet sustainability goals.
- Fibers certified under SFI® chain of custody.
- Application versatility ideal for hot and cold food applications!

High-gloss polyethylene coating on the outside of the container allows for exceptional print quality and a smudge-free surface

Flush fill capacity on all sizes, except the 32 oz, to reduce food costs and increase profits

Recessed High-Heat
Vented PP Lids — Clear

PRINTED ON RECYCLED PAPER
