

PrimeWare® – **READY. SET. GO GREEN.**

PrimeWare® by AmerCareRoyal™ is a line of eco-friendly products, many of which are BPI-Certified compostable. Our cups, plates, carriers, trays and containers are made from sustainable paper, or natural molded fiber. PrimeWare lids, straws and cutlery are made from either compostable materials or fully recyclable PET.

PrimeWare compostables meet FDA guidelines for food service contact, are tested using ASTM D6400 guidelines and meet Health Canada guidelines for foodservice disposables. Delivered with efficient, dependable service, PrimeWare has eco-friendly, environmentally responsible products ready when you need them.

General Product Information:

- Compostable products are Certified compostable by the BPI (Biodegradable Products Institute)
- Tested using ASTM D6400 guidelines
- Meets FDA guidelines for molded-fiber food contact surfaces
- Meets Health Canada guidelines for foodservice disposables
- Microwaveable and freezer safe
- Ability to create custom items
- Can private label for large volume distributors

PrimeWare
Certifications

BPI (Biodegradable Products Institute) - The BPI certifies products as compostable only after they have been tested by the ASTM standards and have successfully met ASTM guidelines. Additionally, test results need to be submitted to a scientific review board for final approval before receiving the BPI certificate.

ASTM D6400 - PrimeWare has been tested by ASTM standards, and meets their guidelines for compostable molded-fiber products. Note: ASTM does not “Certify” products, they simply create testing standards and protocol to be followed during research.

USDA BioPreferred - The BioPreferred program aims to increase the purchase and use of renewable, environmentally friendly bio based products while providing “green” jobs and new markets for farmers, manufacturers, and vendors.

FDA - PrimeWare complies with FDA guidelines for food contact surfaces.

Health Canada - PrimeWare has received the approval of the Canadian government as safe for food contact.

ISO 9001 - This certifies that the factory has been audited and meets this ISO standard for Quality Management Systems for processing, production and sale of disposable paper pulp molded products.

ISO 14001 - This certifies that the factory has been audited and meets this ISO standard for Environmental Management Systems for processing production and sale of disposable paper pulp molded products.

PrimeWare®

PrimeWare® by AmerCareRoyal™ is a line of eco-friendly products that offer a variety of take out packaging, cutlery, cups and straws. These items are perfect for restaurants, bars, catering and much more!
