About Rofson Associates

Rofson Associates, Inc. is a leading direct importer of wooden, paper and plastic disposable products. For over 50 years, our family held company has been creating and supplying disposables to the Food Service and Institutional markets.

Our founder, Lou Rofé, was among the first American businessmen invited to China after President Richard Nixon's historic inaugural visit to open the borders for U.S. trade. This early presence in the Far East enabled us to build a solid foundation and garner relationships that still exist today.

Since its inception, Rofson Associates has been committed to providing quality disposable products at fair and competitive prices. As parts of the industry have looked to control cost through inconsistent quality and by employing historically low-cost production assets, our belief in being a good partner and corporate citizen has not changed. Our customers know that our products have a consistent quality level and are produced in a socially responsible manner.

All Rofson products are manufactured to precise specifications, using materials that meet all FFDC standards for direct and indirect food contact, and are acceptable for use in USDA inspected establishments.

As a leading importer, Rofson's commitment is to exceed the expectations of our customers. We stand 100% behind our products and service. Our most important asset is that we treat our customers, representatives and overseas associates as partners and part of the Rofson family.

Rofson Associates, Inc.

Celebrating 50 years in Foodservice Disposables
